# STUDENT PERFORMANCE

Colorado students are assessed once a year in order to measure their performance on state academic content standards, using the Colorado Student Assessment Program (CSAP). The chart below shows the results for grades 3 - 5 in the subject areas for reading, writing and math for all students tested.

## CSAP 2004 Spring

Note: Percentages may not add to 100 due to rounding

### Percent of Students Scoring Proficient and Advanced

	Your School	District	State
Grade 3-5 Reading	42%	87%	68%
Grade 3-5 Writing	29%	74%	53%
Grade 3-5 Math	75%	81%	59%

### Student Test Scores Used For Calculating Overall Academic Performance

Each school in the State received a rating of "Excellent", "High", "Average", "Low", or "Unsatisfactory" for student academic performance in school year 2003-2004 using the CSAP results printed above. Every student in this school who took these tests was included in the calculation used to assign a rating, except for students who do not speak English, or who are eligible for the state alternate assessment for students with disabilities, or who enrolled in the public school after February 1 of this school year. The percentages of students whose scores were included in the calculation or were not included in each of the three categories is shown on the above chart. Your school's rating was determined by the percentage of students performing in each of the Advanced, Proficient, Partially Proficient, and Unsatisfactory levels. These percentages were weighted and combined across grade levels and academic areas. These weights reward performance at the Advanced and Proficient levels over performance at the Partially Proficient and Unsatisfactory levels. The ratings were assigned after calculating the weighted total for each academic area and grade level for each school and comparing this school to all other elementary schools for the 2003-2004 school year.

# QUESTIONS PARENTS SHOULD ASK

**Based on your child's school's Overall Academic Performance Rating of Low, here are some questions you may want to ask your school about student achievement.**

### What is the school doing to improve my child's overall grades in reading, writing, and math?

You may want to request information from your child's teacher to find out what curriculum is being taught and if the material follows standards set in these key subjects. Ask how phonics - and research-based testing is being used to identify your child's strengths and weaknesses.

### What can I do as a parent to help my child do his or her best in school?

Parental involvement is important in making sure your child does well in school - talk to your child's teacher to find out how you can help. Ask your child's teacher about giving your child supplemental reading and math assignments or for additional homework that you may help your child with at home.

### How does my child's teacher plan to help my child do his or her best in school?

Your child's teacher should have a good idea of what your child does well and what areas might need improvement. Ask your child's teacher how he or she is being diagnostically assessed and what strategy his or her teacher has in place to address your child's needs.

### How does the school use tests (i.e. CSAP, NAEP, etc.) to measure and improve your child's education?

Each year, the state measures how well students are doing in school. Ask your child's teacher what can be done at home and what is being done at school to boost your child's scores.

### What other schools and options may be available to provide the best match for my child's school needs?

Ask your child's counselor about other options that may be available for your child such as charter schools, magnet schools, before- and after-school programs, summer school, etc. Also, you should ask your school if it provides professional development to its teachers and performs diagnostic evaluations that can help the school target what needs to be improved.

### What is the school doing to make sure its students are doing the best they can do?

If your child needs extra help, the school should be able to provide it. Ask about how it plans to make sure all students are learning what needs to be learned, which areas still need improvement and what is being done about it.

**Based on this school's academic performance, your child may be eligible for one or more of the following; ask your school if your child qualifies for:**

- After-school and summer-school classes
- Tutoring
- Mentoring
- Other extra help outside of regular school hours
